Re: **Second Reading-Public Hearing.**

---

As part of the second reading process it is intended that any persons in the audience should be allowed time to express their opinion of the subject at hand as it is a PUBLIC HEARING also.

The Chair should allow time for the discussion first with the entire board and then open it up to the public.

The reference place for the purpose of the Readings is stated in the Solid Waste Ordinance Section III-3 and 6 in the rules and procedures of the Transfer Station.

It is my understanding that two issues are at hand:

1. Concrete materials, bathroom and kitchen ceramics and stone materials. The change that requires this second reading is the fact that the Transfer Station Superintendent is proposing to set a fee of .07 cents per pound which is set in Category 1. (Concrete is already on the fee structure list)
2. Electronics disposal/Recycling fee adjustment (see attached)
